

AMENDMENTS TO THE CLAIMS:

This listing of claims will replace all prior versions, and listings, of claims in the application:

LISTING OF CLAIMS:

1-4. (Canceled)

5. (Original) A file storage device that is capable of communicating with a portable terminal, comprising:

a thumbnail image transmitting part for transmitting a thumbnail image for a specified file to said portable terminal in response to a request from said portable terminal;

an enlarged image generating part for generating an enlarged image for said thumbnail image in response to a request from said portable terminal; and

an enlarged image transmitting part for transmitting the enlarged image generated by said enlarged image generating part to said portable terminal.

6-7. (Canceled)

8. (Original) A printing system, comprising:

a file storage device for storing a file;

a printing device communicable with said file storage device; and

a portable terminal communicable with said file storage device, wherein

a file stored in said file storage device is printed by said printing device based on an instruction from said portable terminal;

said file storage device including:

a thumbnail image transmitting part for transmitting a thumbnail image for a specified file to said portable terminal in response to a request from said portable terminal;

an enlarged image generating part for generating an enlarged image for said thumbnail image in response to a request from said portable terminal; and

an enlarged image transmitting part for transmitting the enlarged image generated by said enlarged image generating part to said portable terminal;

said portable terminal including:

a display part for displaying the thumbnail image and the enlarged image received from said file storage device.

9-12. (Canceled)

13. (Original) A program for controlling a file storage device that is capable of communicating with a portable terminal, wherein said program causes said file storage device to execute a process comprising the steps of:

1) transmitting a thumbnail image for a specified file to said portable terminal in response to a request from said portable terminal;

2) generating an enlarged image for said thumbnail image in response to a request from said portable terminal; and

3) transmitting the enlarged image generated in step 2) to said portable terminal.

14. (Original) A computer readable recording medium on which the program for controlling a file storage device as claimed in claim 13 is recorded.
